

Pragith Prakash

AI Forward Deployed Engineer, consultant and educator

Data and software experience since 2012. Recent work includes eighteen months owning architecture and production delivery for an enterprise AI assistant.

Professional experience

November 2021–
present

AI and data engineering engagements

Vriksh Consulting Services Inc. · Consulting entity

I own architecture, implementation and production support across AI and data engagements. This includes eighteen months owning architecture and production delivery for an enterprise AI assistant. Other platform work includes multi-terabyte datasets and hundreds of automated pipelines; that scale describes the estates I worked on, rather than a measured improvement from my contribution.

January–November
2021

Quality & Technical Services Manager / Lead R&D Data Scientist

Sofvie · Employment

I led technical quality and applied data research, including cloud data workflows and delivery automation.

June 2018–January 2021

Staff Consultant → Senior Consultant

Dentsu / Merkle Cardinal Path · Employment

Staff Consultant, June 2018–January 2020; promoted to Senior Consultant, January 2020–January 2021. My work covered enterprise analytics and cloud data consulting.

March 2017–June 2018

Consultant, Data Science

EY · Employment

I worked on data science and analytical processing for forensic and regulatory work, with client and dataset details kept confidential.

November 2015–March
2017

Data Scientist

Wipro · Employment

I built analytical systems over operational and log data, working on modelling, implementation and performance investigation.

June 2012–November
2015

Early data and software roles

SMART FBO, Hibu and Sigmoid · Grouped early-career period

My early work spanned reporting, backend development and real-time analytics using Python, SQL, R and distributed processing. This grouped period covers several roles.

Teaching and community

- Correlation One · 2021–2024 · Lead instructor, Walmart Data Science Bootcamp and DS4A.
- Cambrian College · 2020–2024 · Adjunct / Partial Load Professor.
- Google Developer Groups · 2020–present · Chapter Lead.

Selected skills

Python, SQL and R; data pipelines and cloud analytics; AWS, Google Cloud, Azure and Databricks; AI integration, release automation and production support.

Education

MBA, International Business · ICFAI, Bangalore · 2013–2015.

BE, Information Technology · CMR Institute of Technology, Bangalore · 2007–2012.
